This book is an SOS from a Russian expert. He has lived through the end of democracy in his own country and he sees the need to warn readers outside Russia of the comparable risks facing their own countries. Is the whole world about to experience a long period of instability and social and political regression? Is Europe facing the threat of a major war?

From the start Eidman presents the regime in Russia as the pioneer and leader of a new far-right conservative movement. He lists Putin together with politicians such as Trump, Erdogan, Marine le Pen, Urban, Hofer, Frauke Petry, and others. The aggressive regime Putin has created in the east of Europe is contriving to reestablish its power base within the former Soviet sphere of influence. The author describes how Putin tries to influence the public opinion in western countries in order to destabilise the political status quo, how he supports far-right organisations throughout the world and how Moscow has become the command centre for a neo-conservative revolution.

Eidman analyses how Putin came to power and how, using various pretences, he has turned Russia into an autocratic regime. Authoritarian organisations in western countries are now attempting a similar procedure. Eidman's book must be seen, not only as shock-therapy for Russophiles in particular, but also as a warning for all, thereby enabling a necessary and appropriate assessment of the situation and the accompanying danger. The book provides detailed information of the source of the threat, its nature and how it could be countered. It is the author's opinion that tolerating Putin is equivalent to accepting the neo-conservative revolution, by which the liberal West is to be reduced to a model of Putin's design.

The book is easily accessible and reads like an angry political pamphlet intending to shake up a wide base of readers outside Russia. Thanks to his experience in working in elevated Russian political circles Eidman has important insider information, which he shares with the readers of this book.

Eidman was born in Gorky (today Nizny Novgorod) in 1968 as the son of a famous physicist. After graduating in history he began his career in the 1990s, working as journalist and editor for different media. He later became political consultant for high-ranking politicians, members of the Russian Duma and leaders of the liberal parties. The publication of his conceptual research work on theoretical sociology and social history entitled "Breakthrough to the Future. The Sociology of the Internet Revolution" brought him overnight fame. He took on the post of Communications Director with the Russian Centre for Public Opinion Research (VCIOM). However, after his support as a witness for the New Times for uncovering an in-house corruption scandal, he lost his job and, seeing himself and his family under increased pressure, he emigrated to Germany. Not many years later his cousin, the opposition leader Boris Nemtsov, was murdered in Moscow. Eidman's most recent publication is "Das System Putin" (Heyne, Germany, 2016). He writes for wellknown German-language newspapers such as SZ, FAZ, NZZ or magazines such as Focus and had his own column with the Deutsche Welle.
